

MediTrace OS (KIT26038) - Executive Overview

MediTrace OS (KIT26038) • PROJECT VISION & HIGHLIGHTS

SLIDE 1/6

MediTrace OS: Smart Medical Waste OS

Bedside Waste Segregation, Trilingual AI Computer Vision & IoT Cart Interlocks

Retrofits onto standard hospital ward trolleys to eliminate cross-contamination, enforce India BMWM Rules 2016 compliance, and provide an immutable digital chain of custody from bedside to CBWTF incinerator.

Ø>Ý Gemini AI & Trilingual Audio

Instant vision classification + Vernacular audio directives in English, Hindi (™?)&” ’Â æB Telugu (ÂL=Â

Ø=Ý IoT Cart Solenoid Interlocks

Dynamic lid lock states (Target UNLOCKED, remaining LOCKED) + 880Hz siren mismatch alarm.

Ø=ÜÄ CPCB Form-IV & Logistics Portal

Automated shift manifest QR serialization + Weighbridge scale reconciler & GPS fleet map.

The Bedside Problem & BMWM 2016 Mandate

MediTrace OS (KIT26038) • REGULATORY BACKGROUND

SLIDE 2/6

The Hospital Ward Challenge

Hospitals face severe statutory penalties under Bio-Medical Waste Management (BMWWM) Rules 2016 for bedside cross-contamination.

- High Infection Outbreak Risk: Mixing sharp/soiled waste in plastic bins.
- Manual Classification Errors: Overworked ward staff missegregating items.
- Transport Weight Disputes: Mismatches between hospital logs and CBWTF truck scales.
- Lack of Chain-of-Custody: Paper logs are easily lost or altered.

BMWWM 2016 Statutory 4-Bin Matrix

Ø=ßá YELLOW

Infectious / Soiled Waste

1050°C Incineration (0% Recyclable)

Ø=Ý4 RED

Contaminated Plastics

Autoclave & 95% Polymer Recycling

Ø=Ý5 BLUE

Glassware & Implants

Disinfection & Glass Smelting (85%)

&^a WHITE

Sharps Puncture-Proof

Autoclave & Needle Mutilation (10%)

AI Computer Vision & Trilingual Audio Engine

MediTrace OS (KIT26038) • MODULE 1 & AUDIO DIRECTIVES

SLIDE 3/6

Gemini Multimodal Vision API Integration

Analyzes live camera feeds or photo uploads to instantly classify biomedical waste items into statutory BMWWM bins with pathogen risk levels and recyclability percentages in <1.2s.

Trilingual Vernacular Spoken Audio Directives (Web Speech API)

English (EN)

"Drop IV tubing and saline bottle into Red recyclable plastics bin."

Hindi (HI - "™?")&" •

"i "Y@ 'ùM'ùB'É?•) 'I0 "%oG")>•y('ÉK'I2 'YK ")>"" 0" 8"é 'YM")?•) '©M")>"%oM'ù?'R !"ù,"Ù,"r ."y ' >")G•)d"

Telugu (TE - ÂLFÃ,AÁ|A)

"IV ÁüMÂüBÂî?À, ÄÒ .Ã ?ÂüA ÄÇEFÃ,HÂÇEM Âì>Áü?Ã,M ÂÇEA Äì0Ä *Ä 0Ä, Ä 0Ä 8ÄÇE ÄÜ2Äü Á|M Â-MÃ,>ÄÇEMÁü?Á|M Â 8ÄÜ ÄÒ ,Äü(ÄÒ ì2Ä² 5Ä|/Ä,!Äòâ

IoT Mobile Cart Digital Twin & Solenoid Interlocks

MediTrace OS (KIT26038) • MODULE 2 & SAFETY ALARM

SLIDE 4/6

YELLOW CONTAINER

Lid Status: LOCKED

Load Cell Telemetry: 0.00 / 15.0 kg

Solenoid Interlock: Armed

RED CONTAINER

Lid Status: UNLOCKED (Target)

Load Cell Telemetry: 0.25 / 15.0 kg

Solenoid Interlock: Armed

BLUE CONTAINER

Lid Status: LOCKED

Load Cell Telemetry: 0.00 / 10.0 kg

Solenoid Interlock: Armed

WHITE CONTAINER

Lid Status: LOCKED

Load Cell Telemetry: 0.00 / 8.0 kg

Solenoid Interlock: Armed

- **880Hz Emergency Mismatch Siren**

Flashes red emergency screen & plays AudioContext siren when locked bin is breached.

- **Zero Load Cells (Tare Calibration)**

One-click reset to 0.00 kg for fresh shift calibration.

CPCB Form-IV Manifest & MediTrace Logistics

MediTrace OS (KIT26038) • MODULES 3 & 4 (LOGISTICS)

SLIDE 5/6

CPCB Form-IV Digital Manifest Modal

- Shift Sealing: One-click "Seal Batch / Form-IV" trigger.
- Category Weight Breakdown: Itemized weight totals for Yellow, Red, Blue, White containers.
- 2D QR Code Serialization: Generates scannable QR canvas with signed verification hash (0x94f8a...e102c9).
- Print / PDF Export: Ready for Infection Control Officer review.

MediTrace Logistics & Fleet Portal (/logistics)

- Form-IV QR Scanner: Vehicle operator scans ward manifest.
- Weighbridge Scale Reconciler: Compares Bedside Weight vs Truck Scale reading. Flags 9F1r D•45\$U ANCY ALERT if variance > 0.5kg.
- GPS Fleet Transit Map: Animated transit route from Hospital Loading Dock -> Central Incinerator Plant (14.2 km).
- Sealed Transfer Receipt: Dual sign-off issuing digital handover certificate.

Technical Verification & Readiness Audit

MediTrace OS (KIT26038) • PROJECT READINESS & SUMMARY

SLIDE 6/6

' 100% VERIFIED & PRODUCTION READY

npx tsc --noEmit PASSED (0 Errors) • npx next build PASSED (Exit Code 0) • All Automated Browser Tests PASSED

Automated Test Audit Results

1. AI Vision & Trilingual Speech	Correct bin returned, spoken voice played	PASS
2. Dynamic Solenoid Lid Interlocks	Target bin UNLOCKED, 3 non-target LOCKED	PASS
3. Emergency Mismatch Siren	Red screen flash, 880Hz siren, audit log logged	PASS
4. Tare Load Cell Zeroing	All bin weights reset to 0.00 kg / 0 items	PASS
5. CPCB Form-IV Manifest QR Code	Confetti fired, valid signed QR code rendered	PASS
6. CBWTF Logistics Handover	Weighbridge delta computed, GPS map animated	PASS

Deployment Status: Active on <http://localhost:3000>

Ready for hospital ward installation, Infection Control Officer review, and NABH statutory certification.
